To Whom It May Concern:

Re: Emmaus Road

I am pleased to provide a recommendation for the Emmaus Road Quartet. We have had them minister at our large summer camp gathering for several years in succession and have always found their ministry to be effective, appropriate, and presented with quality. You will find that the quartet interacts well with the congregation and are cooperative with church leadership. We certainly do plan to invite them to share with us in future events and I warmly recommend them to you.

If any further information is desired, it will be gladly provided upon request.

In His Majesty's service,

H. C. Wilson
District Superintendent
